

VATHSALA H

W E B D E V E L O P E R

PROFILE

Creative web designer with knowledge of HTML, CSS and React seeking an entry-level position to contribute innovative and responsive designs. Passionate about enhancing user experience and eager to learn from industry professionals.

PROFESSIONAL EXPERIENCE

Steyp - Kerala

Intern

Gained valuable experience working within a specific industry, applying learned concepts directly into relevant work situations.

Projects

Euphoria

Euphoria is a responsive web project built with HTML, CSS, and JavaScript. It features a dynamic navbar and showcases my front-end development skills.

Exclusive

It is a responsive React app using styled-components for scalable, modular styling. It features a dynamic interface that adjusts smoothly across devices, highlighting my React and front-end development skills.

Stock Management

Built with HTML, CSS, Bootstrap, and Python (Flask) to track and update stock details.

Water Potability Prediction

Used Decision Tree and KNN algorithms in Python to predict water quality based on dataset analysis.
